20%

3 • Business - Medium
17%

4 • Business - Small
15%

5 • Business - Micro
4%

6 • Sole Trader/
Individual/
Own Startup
2%

7 • Not-For-Profit
1%

FINDINGS & ANALYSIS:

41% of Bruneian graduates surveyed expressed their desire to work in the Government sector while 59% choose the Private sector. About 1 in every 2 students prefer to work in either a large or medium or small organisation. Only a minority of the students prefer to work in micro organisation or non-profit or sole traders. Without doubt, competition is definitely much higher when it comes to landing a job in the Government Sector as compared to securing jobs in the Private Business Sector. In order to gain real work experience early upon graduation, Bruneian graduates may need to be more realistic and find work opportunities in various sectors.
